## Slip Wash Furniture

Please follow these instructions carefully when replacing your loose covers after cleaning

Ensure that the zip (if fitted) is fully open, then locate cover over both top back corners.

Draw cover forward over first arm and make sure that the facing fits over the front arm panel.

Repeat the previous operation on the second arm.

Tuck in excess cover between seat and sides and back. Straighten skirt at base and zip up.

FRESH AUSTRALIAN FURNITURE

Established on the Gold Coast in 1977, Contour is now one of Australia's leading furniture manufacturers with a history of quality and design. We specialise in motion furniture, home theatre, sofas and sofa beds and have built a reputation for quality supply to Australia's leading furniture retailers. We offer an uncompromising commitment to quality.

a range of slip wash footstools are also available

## Don't Compromise, Customise

### Custom design, service & peace of mind

Customers are encouraged to choose from an extensive range of fabrics to help customise their decor. We prefer to offer fabrics from Australia's leading suppliers who ensure that fabrics from around the world are tested to exacting Australian standards for abrasion, pilling resistance and colourfastness and to ensure absolute consistency of quality. Fabric quality guarantees are supplied independently by each supplier.

## Slip Wash sofas and chairs

willow sofa

'compliment your lifestyle'

FRESH AUSTRALIAN FURNITURE

**COASTAL GOLD™**

**Slip Wash Furniture**

Our new Coastal Gold sofas and chairs feature a practical range of washable upholstery fabrics that are commercially pre-washed and laboratory tested, to ensure that your sofa and chair covers can be machine washed and tumble dried without fear of shrinkage.

These fabrics are designed to meet international quality standards for durability, colour fastness and ease of maintenance. With more than one cover, you can change at your leisure, the very atmosphere, feel and character of a room, or with different seasons, transform your room, without changing your furniture.

**DURABILITY:** (Martindale Rub Test ISO 12947-2)  
In laboratory conditions fabric samples are continuously rubbed under pressure until the fibres are observed to fatigue. Coastal Gold Slip-Wash fabrics are classified as suitable for General Domestic and Light Commercial upholstery use (between 15,000 – 20,000 Martindale rubs).

**Slip Wash**

**sofas and chairs**

**GENERAL CARE:**

Vacuum weekly using low suction.  
Rotate reversible cushions regularly.

**WASHING INSTRUCTIONS:**

If your covers are too bulky for your machine we recommend professional washing by your local laundry.

Use a gentle cycle and do not wash the fabric at a temperature exceeding 40 degrees.

Do not use washing agents containing any optical brightener, as this may affect colour, particularly if cushions and main covers are not washed at the same time.

Use a washing agent that does not contain optical brighteners and which is suitable for colour retention such as Earth Choice (3 X Ultra concentrate liquid), or Eco Store Laundry Powder, or Omo Colour.

If using a tumble dryer, use a cool setting.

Ironing should not be necessary, but if required, iron on the reverse side using a light steam.

Dry cleaning is possible if preferred but some colour variation may occur if cushions are cleaned separately from the main covers.

**WARNING:**

Do not: Use washing agents containing any optical brightener, as this may affect colour, particularly if cushions and main covers are not washed at the same time.

Do not: Mix different colours or fabrics in the wash.

Do not: Squeeze or wring by hand.

Do not: Dry in direct sunlight as this may accelerate colour loss.

Do not: Apply detergent directly to covers when washing.

Do not: Tumble dry with hot setting.

**NOTE:** Some minor colour change may occur in the initial washing stages. We recommend laundering in complete cover sets to ensure colour variation between cushions and main covers does not occur.
